SKYROAM™

End-to-End Mobile Marketing Strategy for your business

CONNECT YOUR BUSINESS WITH SPEED & REACH

SMS Networking

A patent pending technology allowing group networking and co-working to take place within the company or external entities. Everyone within the community can communicate and work together to leapfrog efficiency via SMS and stay informed without administrative and support burdens.

QR Code Marketing

This allows advertisers to generate QR Codes to be printed on magazines, signboards, buildings, T-shirts and etc. This amazing & hottest marketing approach connects your mobile audiences to your website, Google® map, delivers text, rich media contents, tracks locations & more!
