

A Privileged Way to Cut Costs & Increase Sales Efficiency

To ride out of the global economy down turn, cost cutting measure, beside other, is key to the companies, employees and even individuals.

Company and individuals must reduce sales-related costs at the same time increase the sales efficiency, it seems contradicting to many. Not with OneTransit patent pending innovation – CallnSMS, a system built to provide integrated **budget mobile call** for saving mobile calls charges and **managed SMS Service** that improves the reach to market rapidly by SMS technology; both are integral part of a Corporate Service Card – **CALLnSMS**.

Corporate Service Card

The benefits to provide a corporate service card for sales force are as follows:

1. **Remove administrative costs.** Each card is sold for \$10 as prepaid card. User knows what to do by reading the instructions how to use.
2. **Cut costs for employees and agents on mobile calls,** a new approach to saving mobile charges for them, thus enhances their morale during tough economy. User can also set to **show or hide Caller ID** to the called party.
3. **All users of the card are reachable via SMS** automatically by the company's admin account provided, allowing them to receive alerts and leads on the move.
4. **Company can provide SMS Service using their contact database** without revealing the contact numbers & allow sales staff to conduct SMS Marketing.
5. **All users can maintain their own SMS broadcast contacts** via web account and send bulk SMS via their own phonebook or company's central database.
6. **As company branded gifts to customers,** the card carries the brand name of the company which uplifts the image of the company.
7. **Proven, stable and patent pending technology** with customers from aerospace industry and largest Oil and Gas Company from off-shore locations via satellite.

For more information about features of the cards, please refer to service brochure.
